

**BEFORE THE  
FEDERAL COMMUNICATIONS COMMISSION  
WASHINGTON, D.C. 20554**

In the Matter of	)	
	)	
Section 68.4(a) of the Commission's Rules	)	WT Docket No. 01-
	309	
Governing Hearing Aid-Compatible Telephones	)	RM-8658

**Supplement to Hearing Aid Compatibility Report  
and Request for Extension of GSM-Based HAC Compliance Relief**

Farmers Cellular Telephone Company ("Reporter"), a digital wireless service provider, pursuant to the Federal Communications Commission's ("Commission" or "FCC") *Order* in WT Docket No. 07-309, FCC 03-168, 29 CR 1299 (August 14, 2003), in response to an informal inquiry by the Commission's staff, hereby files a supplement to its September 18, 2006 report concerning the availability of digital phones for the hearing impaired. In support whereof, the following is respectfully submitted:

1) The staff has requested that we provide the FCC identification numbers associated with the handsets listed in Reporter's September 2006 report. Those identification numbers are:

·Motorola V3 IHDT56EU2 & IHDT56EU3 Approved June 8, 2004 & September 15, 2005

·Motorola V220 IHDT56ER1 & IHDT56ER2 Approved April 15, 2004 & September 15, 2005

·Nokia 6101/6102 PPIRM -76 & PPIRM -77 Approved May 10, 2005 & June 15, 2005

·Samsung 496 A3LSGHX497 Approved June 13, 2005

2) Since the filing of the last report Reporter has learned that Nokia models 6101 & 6102, the Motorola V220, and the SGH-X496 have been discontinued. At this time Reporter has not obtained replacements for the Motorola V220 and the Samsung

496. Nokia models 6101 & 6102 have been replaced by Nokia 6103 with FCC identification numbers of PPIRM -161 & PPIRM-162 approved Feb 9, 2006 & March 14, 2006.

3) As discussed with the staff Reporter had some difficulty attempting to ascertain the HAC compliance information for the new Nokia handset (model 6103). The Nokia representatives Farmers contacted were, at first, reluctant to discuss the HAC compliance of the new phone.<sup>1</sup> Upon further inquiry Reporter was directed to Nokia's online HAC web page (copy attached for convenience). However, that page does not list the Nokia 6103's HAC compliance capabilities. Therefore, at this time, Reporter is unable to report regarding the HAC compliance of this handset.

February 16, 2007

Respectfully Submitted,  
Timothy E. Welch  
Hill & Welch
